Lana:

This is in response to the I-JOBS funding concerning the Hazard Mitigation Grant Program (HMGP) safe room grant application for the City of Stanton. Please accept this email as written verification from the State of Iowa and HMGP office of notification to FEMA concerning I-JOBS funding when also applying for an HMGP grant.

The State has made notification to the appropriate FEMA official and FEMA has responded with no objections to use State I-Jobs funding for local match with HMGP funding.

As stated below concerning the budgets, in the event the HMGP grant is awarded, when submitting the payment requests and budget, we will require that the FEMA eligible cost items for the HMGP grant be distinguished from the I-JOBS funding.

Thank you,  
Jennifer Jones  
State Mitigation Project Officer  
Iowa Homeland Security & Emergency Management System  
Iowa Recovery Center (IRC)  
Urbandale, IA 50323

Subject: City of Stanton - Intent to apply for I-Jobs Disaster Prevention funding

RE: FEMA Notification

Please accept this e-mail as official notification that the City of Stanton intends to apply for I-Jobs Disaster Prevention funding for construction of the safe room areas of the Viking Center building. Two budgets will be submitted with the application. One budget will demonstrate the use of FEMA funds (in the event a FEMA grant is awarded); one budget will not (in the event a FEMA grant is not awarded). There is no intention to duplicate funding for this project.

If you have issues regarding the submission of this application, and/or the use of I-Jobs funding, please contact one of the following City of Stanton representatives:

Grant Consultant Lana Pals, 641-345-2281  
Project Manager Mickey Anderson, 712-370-0037  
Stanton City Clerk Marilyn Rubel, 712-829-2211

For purposes of the grant application, the City of Stanton will need written verification from program staff that FEMA was notified of this action. This e-mail may simply be signed, scanned, and electronically returned to me if no issues exist with this application. If FEMA staff does have an issue concerning duplication of benefits and/or submission

of the application, please express the issues in writing. The I-Jobs grant deadline is August 2.

Thank you for your consideration.
